

# R. SAI SRIJA

Software Engineer | Python Developer | Web Developer | Software Tester / QA | Cloud Computing

8825741127 | saisrijaraja@gmail.com | Coimbatore, Tamil Nadu | linkedin.com/in/saisrijaraja

## PROFESSIONAL SUMMARY

Results-driven B.Sc. Information Technology graduate (2026, 75%) with practical experience in **Python development, full-stack web development, software testing, and cloud computing**. Completed a Python Development internship at Nextlogic Solutions and independently delivered four end-to-end projects spanning application development, responsive web design, manual QA testing, and secure account management. Proficient in Git/GitHub, Linux, SQL, and AWS/Azure fundamentals. A quick learner with strong analytical and problem-solving skills, seeking a fresher role as Software Engineer, Python Developer, Graduate Trainee, or IT Support Associate to contribute and grow within a dynamic IT environment.

## CORE COMPETENCIES

|                               |                                |                               |
|-------------------------------|--------------------------------|-------------------------------|
| ◆ Python Programming          | ◆ HTML5 / CSS3 / JavaScript    | ◆ Responsive Web Design       |
| ◆ Manual Testing & QA         | ◆ Test Case Design             | ◆ Bug Tracking & Reporting    |
| ◆ Cloud Computing (AWS/Azure) | ◆ Git & GitHub Version Control | ◆ Linux Administration        |
| ◆ SQL & Database Basics       | ◆ Data Structures & Algorithms | ◆ Object-Oriented Programming |

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, SQL, Bash (Basic)

**Web Technologies:** HTML5, CSS3, Responsive Design, DOM Manipulation

**Testing:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, SDLC, STLC

**Cloud & DevOps:** AWS Fundamentals, Azure Fundamentals, Git, GitHub, Linux CLI

**Tools:** VS Code, MS Excel, MS Word, PowerPoint

**Concepts:** OOP, Data Structures & Algorithms, Agile Basics, Version Control (Git Flow)

## INTERNSHIP EXPERIENCE

### Python Development Intern — Nextlogic Solutions, Coimbatore

30-Day Program | 2024

- Developed Python-based applications using OOP principles, modular design, and file I/O — delivering clean, maintainable code.
- Performed systematic debugging, defect resolution, and code reviews on real-world development tasks.
- Managed source code using Git & GitHub with structured branching and pull-request workflows.
- Collaborated effectively with team members to improve delivery speed and overall code quality.

## PROJECTS

### E-Commerce Web Application

Python · HTML5 · CSS3 · JavaScript · SQL

- Designed and built a fully responsive e-commerce platform featuring product listing, cart management, and search — optimised for desktop and mobile browsers.
- Conducted end-to-end manual testing of cart and checkout flows; documented and resolved functional and UI defects.
- Architected with a modular, stateless design suitable for cloud deployment on AWS/Azure.

Accounts Management Web Application

Python · HTML · CSS · SQL

- Developed a secure web platform for account and transaction management with login authentication, role validation, and input sanitisation.
- Executed regression and smoke testing across all modules; applied cybersecurity best practices for data protection.

Employee Management System

Python · SQL · OOP

- Built a CLI application for employee record CRUD operations with data validation and file-based persistent storage.
- Designed and executed test cases for all CRUD paths; identified and resolved edge-case bugs during functional testing.

Quiz Application

Python

- Developed an interactive quiz platform with dynamic score calculation, timer logic, and answer validation using modular Python design.
